

# DATA SHEET

**PRODUCT CODE:**

**1002**

**PRODUCT NAME:**

***Hotsol***

**DESCRIPTION:**

Adhesive solution based on natural / synthetic rubbers and solvent-reinforcing pigments for hot vulcanization.

**MAIN FEATURES:**

- Excellent resistance to mechanical stress.
- Excellent elasticity.
- Excellent adhesive characteristics for the coupling.
- Fast drying.

**TECHNICAL DATA:** (The data relate to the product mixed at 20°C)

**Appearance:** liquid black

**Smell:** characteristic

**Solubility in water:** immiscible

**Specific weight:** 0,79 ± 0,02 kg/l

**Solids content by weight:** 15 ± 0.3%

**vulcanization temperature:** recommended 150 ° C

**Storage stability (cool and dry place):** 12 months from delivery date - The product must be stored in cool, in the absence of direct light. The prolonged storage at temperatures above 25°C reduce the lifetime of the product.

**BRUSH:**

If applied by brush, occasionally homogenize (every 10/15 minutes) manually.

**SPRAY:**

If applied by spraying is recommended to keep the product in agitation during use.
